### **CIBER OPENS NEW BANGALORE FACILITY** **Expands Global Distributed Delivery Center**

GREENWOOD VILLAGE, Colo. – June 21, 2006 – CIBER, Inc. (NYSE: CBR) today announced the grand opening of another software application development and management center in India. The site joins two other sites in Bangalore, India, which CIBER acquired as part of its 2005 acquisition of Bangalore-based Knowledge Systems Pvt. Ltd.

The new, 50,000 square foot facility is one of several value-priced global distributed delivery centers, which CIBER brands “CIBERsites.” The other CIBERsites are in Tampa, Fla.; Oklahoma City, Ok.; Phoenix, Ariz.; Dallas, Texas; and Edison, N.J. These centers offer application development, application management and information technology (IT) operations services for companies seeking ways to outsource business functions which are not part of their core mission. Demand for IT outsourcing services has grown rapidly in the last two years.

“India is a strategically important distributed delivery center and market for specific CIBER services,” said Tim Boehm, President of CIBERsites. “In addition to our business growth and increasing sales in India, much of our expansion is fueled by our unique ability to meet clients’ business needs by focusing on the right engagement approach, leveraging technology, and then determining the best delivery mechanism: domestic, offshore or an integrated combination of both.”

#### **About CIBER, Inc.**

CIBER, Inc. (NYSE: CBR) is a pure-play international system integration consultancy with superior value-priced services for both private and government sector clients. CIBER’s global delivery services are offered on a project or strategic staffing basis, in both custom and enterprise resource planning (ERP) package environments, and across all technology platforms, operating systems and infrastructures. Founded in 1974 and headquartered in Greenwood Village, Colo., the company now serves client businesses from over 60 U.S. offices, 20 European offices and four offices in Asia. Operating in 18 countries, with 8,000 employees and annual revenue of more than \$950 million, CIBER and its IT specialists continuously build and upgrade clients’
