CIBER ADDS TO PARTNERSHIP WITH LAWSON SOFTWARE Longtime Partners Add Hosting Services to Service Offerings

GREENWOOD VILLAGE, Colo. – March 19, 2008 –CIBER, Inc. (NYSE: CBR) announced today that Lawson Software and CIBER have expanded their partnership to include CIBER information technology outsourcing (ITO) managed services in secure, state-of-the-art data centers. CIBER is currently both a strategic implementation and a technology solutions partner for Lawson, and was selected to be Lawson’s platinum provider of managed services for Lawson’s Total Care offering. CIBER’s experience and success managing IT and network infrastructures and providing strong application support will allow Lawson customers to focus their critical business resources on their existing and new Lawson applications.

“We have been offering managed services for 15 years to hundreds of clients. We’re pleased that Lawson recognizes our expertise in this area and has chosen to make us an official partner,” said Mark Perlstein, President of CIBER’s IT Outsourcing Practice.

CIBER is a full solution provider offering assessment, planning, implementation, upgrade, integration, change management, hosting and support services. CIBER also provides comprehensive planning and implementation for IT security, WebSphere, and LBI.

The enhanced partnership was announced at Lawson CUE, which is being held March 17 – 20 in Las Vegas, Nev., where CIBER is exhibiting in booth #103. To learn more about CIBER solutions for Lawson users, please visit www.ciber.com/ces/lawson.

CIBER is a [Lawson Business Partner](#), and provides information technology consulting services for private and public companies, as well as local, state, and federal government entities. CIBER was rated the eighth best global IT outsourcing vendor worldwide, and was listed among the top 50 best managed global outsourcing vendors, according to a [June 2007 Brown-Wilson Group survey](#). The Brown-Wilson Group conducts annual surveys of CEOs, CFOs, CIOs, and other business decision-makers at Fortune 2000 organizations to understand users’ evaluations of global outsourcing service providers.
