**CIBER EXPANDS PRESENCE IN LITTLE ROCK**  
**Leading International IT Services Firm Adding to Local Market**

LITTLE ROCK, Ark. – May 27, 2008 – On Tuesday, May 27, at 2:00 p.m., CIBER, Inc. (NYSE: CBR) and the Little Rock Regional Chamber of Commerce will hold a ribbon-cutting ceremony to announce the expansion of CIBER’s Little Rock office. The ceremony will be held at the Little Rock Regional Chamber of Commerce, located at One Plaza in Little Rock. All are welcome to attend.

CIBER currently operates an office for its State and Local Government Practice at 1501 North University, Suite 700. From this office, the company assists state and local government entities with their information technology (IT) challenges, such as software application development and management, business intelligence, IT security, and system implementation and integration.

“The market for information technology (IT) services in the southeastern U.S. is growing as more companies—especially manufacturing and distribution companies—move to the mid-south region to take advantage of the area’s talented labor pool and low cost of living,” said Joe Mancuso, Senior Vice President of Commercial Operations for CIBER. “As a result, we are expanding our Little Rock office—which we have had for nearly 20 years—to include commercial clients and prospects in addition to the government clients we already serve from that location.”

“The Little Rock office expands CIBER’s ability to offer local sales and professional services to our growing base of customers and prospects in the region,” said Shane M Davis, Area Director. Davis will be managing the Little Rock operations.

CIBER provides IT consulting services to mid-market and Fortune 1000 companies throughout the United States, and was recently rated the eighth best IT services company worldwide, according to The Brown-Wilson Group, which publishes The Black Book of Outsourcing, a bestselling international business book and outsourcing resource manual available in multiple languages worldwide. The Brown-Wilson Group conducts annual surveys of CEOs, CFOs, CIOs, and other business decision-makers at Fortune 2000 organizations to understand users’ evaluations of global outsourcing service providers.
