CIBER INSPIRES EFFICIENCIES AT MOODY BIBLE INSTITUTE With Oracle PeopleSoft Implementation

CHICAGO, Ill. – August 20, 2008 – CIBER Enterprise Solutions, a division of CIBER, Inc. (NYSE: CBR), has completed the implementation of Oracle’s PeopleSoft Enterprise Campus Solutions (Student Administration) system for Moody Bible Institute. Chicago-based Moody provides Bible-centered undergraduate, graduate and distance-learning education curricula for more than 4,000 students. The newly implemented student administration system enables students and faculty to access financial and academic information securely via any Internet-enabled computer.

CIBER provided project management, functional, and technical support to implement one of the first general release implementations of Oracle’s PeopleSoft Enterprise Campus Solutions v9.0. Additionally, CIBER helped to integrate the Campus Solutions application with Moody’s existing PeopleSoft Enterprise Contributor Relations system so the two systems can share data, thereby reducing duplicate data entry tasks and simplifying data management. Moody’s PeopleSoft Enterprise Customer Relationship Management system was also integrated with the Campus Solutions system.

CIBER’s work included assisting with design and implementation of a robust Web-portal, which will facilitate the secure dissemination of financial and academic data to students and faculty with authorized accounts.

“CIBER is a leader in implementing student administration systems,” said Frank Leber, Vice President of Information Systems for Moody. “CIBER has led the successful implementation of our PeopleSoft Enterprise Contributor Relations System, which has served us well, and the full-fledged PeopleSoft Enterprise Campus Solutions system. CIBER is skilled at implementing robust solutions and scaling them to fit the unique needs of our smaller, specialized Bible college. They have truly been a collaborative partner on our implementation of PeopleSoft systems.”

“Moody Bible Institute has a distinguished reputation in the world of ministry education,” said Mike Dillon, Senior Vice President of CIBER’s Higher Education Practice. “Moody is clearly progressive in

understanding the competitive advantage a well-planned IT system can provide in terms of streamlining business processes, reducing costs, and increasing student and faculty satisfaction with data access. It isn't just large institutions that can benefit from IT investments, and Moody will be quite pleased with the results of the project."

CIBER, a Certified Advantage Partner in Oracle Partner Network, is a leader in the U.S. and Canadian Oracle and PeopleSoft higher education markets, having implemented Oracle and PeopleSoft Enterprise applications at more than 175 institutions in the United States and Canada. Approximately 25 percent of Oracle and PeopleSoft higher education customers have worked with CIBER to implement and/or upgrade their software. CIBER won Oracle's 2005 UK Partner Innovation Award for implementations at the Universities of Cambridge, Manchester, and Derby in the United Kingdom.

Moody is best known for its education branch, which offers undergraduate, graduate and continuing education programs. Other Moody ministries include Moody Publishers and Moody Radio. To learn more about Moody Bible Institute, please visit www.moody.edu.
