**CIBER ANNOUNCES TEXAS HIGHER EDUCATION COORDINATING BOARD
(CB REPORTING) SOLUTION FOR TEXAS COLLEGES AND UNIVERSITIES**

Greenwood Village, CO –March 11, 2009 – CIBER, Inc., (NYSE: CBR) a global provider of information technology (IT) services, announced the development of a reporting service to support Texas Higher Education Coordinating Board reporting (CB Reporting) requirements for Texas Colleges and Universities running Oracle's PeopleSoft applications.

By consolidating the management of these reports within the integrated Oracle PeopleSoft environment, CIBER will greatly enhance reporting capabilities for Texas Colleges and Universities, while reducing the resources required from each school to maintain separate reporting systems. Colleges and Universities subscribing to the CB Reporting service will benefit from reduced management and maintenance of their system while meeting the state reporting requirements. CIBER will maintain the CB Reports to meet the State's changing standards as well as provide updates for future Oracle PeopleSoft product releases.

CIBER brings to the Texas College and University system extensive experience working with the Oracle PeopleSoft applications in the higher education industry. "We are firmly committed to providing enterprise-wide services for higher education clients," said Mike Dillon, Senior Vice President of CIBER's Higher Education practice. "As the leading publicly-traded systems integrator of Oracle PeopleSoft software for Higher Education, we are excited about this solution and our ability to provide the Texas College and University System with the support needed to fulfill the reporting requirements requested by the Texas Higher Education Coordinating Board."

CIBER, a Certified Advantage Partner in the Oracle Partner Network, is a leader in the U.S. and Canadian Oracle and PeopleSoft higher education markets, having implemented Oracle

and PeopleSoft Enterprise applications at more than 175 institutions in the United States and Canada. Approximately 25 percent of Oracle and PeopleSoft higher education customers have worked with CIBER to implement and/or upgrade their software.

About CIBER, Inc.

CIBER, Inc. (NYSE: CBR) is a pure-play international system integration consultancy and outsourcing provider with superior value-priced services and reliable delivery for both private and government sector clients. CIBER's services are offered globally on a project- or strategic-staffing basis, in both custom and enterprise resource planning (ERP) package environments, and across all technology platforms, operating systems and infrastructures.
