**CIBER LAUNCHES MINING AND METALS SOLUTION,
A QUALIFIED SAP® BUSINESS ALL-IN-ONE PARTNER SOLUTION**

Greenwood Village, Colo. – May 11, 2009 –CIBER, Inc. (NYSE: CBR) today announced the launch of the CIBER Core Mining Solution, a packaged implementation solution that provides mining and metal companies with software, implementation, hosting, and support features, all in one package. One of the most compelling benefits of this solution is that it greatly reduces the up-front capital and human resource investments for mid-market mining companies.

CIBER Core Mining Solution is a qualified SAP® Business All-in-One partner solution based on the SAP for Mining solution portfolio, a leading end-to-end set of solutions for the mining industry. The new mining and metals solution from CIBER is a pre-configured set of core mining processes based on best practices, and it combines the power of SAP for Mining with CIBER's proven rapid implementation expertise. CIBER Core Mining Solution enables mining, metals and mill companies to implement a project, from start to the realization of business benefits, more quickly, easily and cost-effectively.

SAP Business All-in-One partner solutions are qualified by SAP and developed, sold and supported by SAP channel partners as a defined-scope implementation with consulting services, and offer the flexibility to accommodate the unique business needs of each customer. Qualified SAP Business All-in-One partner solutions are preconfigured, industry-specific versions of the SAP ERP application combined with SAP Best Practice offerings, enabling streamlined operations, lower costs and a proven path to growth.

“SAP and its partners offer midsize companies the solutions they need to help them weather the current economic storm and grow their businesses profitably,” said Tom Cooper, senior vice president, SME, SAP America, Inc. “With the CIBER Core Mining Solution, a qualified SAP Business All-in-One partner

solution, customers can leverage CIBER's expertise in the mining and metals industry to achieve their objectives of improved growth, lower costs and better understanding of business processes."

CIBER developed this solution in response to numerous client requests for assistance with all aspects of an advanced ERP implementation project. CIBER Core Mining Solution resulted which includes all key components: software, hardware, implementation services, hosting, education and training, and post-production support.

CIBER Core Mining Solution is the latest evolution of CIBER's long-standing commitment to excellence and innovation in mining and metals solutions. CIBER has completed more than 100 implementations of the SAP Business All-in-One solution, which positions CIBER as a market leader. CIBER recently announced General Moly, Inc. went live on the mining and metals solution on time and on budget.

"Because of the joint efforts of the General Moly implementation team and CIBER, General Moly now has a functional ERP system that is providing us the opportunity to implement and refine our business processes," said Donna Peske, IT manager for General Moly. "Our choice to use CIBER for implementation of the SAP solution, as well as the complete hosting and IT outsourcing services, allows us to have a single, integrated platform. We will continue to partner with CIBER and share our mining expertise to help them further refine their mining solution."

"Mining and metals is a key industry for both SAP and CIBER," said Jay Wheeler, senior vice president of the SAP Practice at CIBER. "We continually look for ways to provide incremental value to SAP's strong offerings for mining and metals. Our CIBER Core Mining Solution accomplishes that. From the client's perspective, this solution operates as a Software as a Service solution; however, each client will have their own dedicated and secure system."

About CIBER, Inc.

CIBER, Inc. (NYSE: CBR) is a pure-play international system integration consultancy and outsourcing provider with superior value-priced services and reliable delivery for both private and government sector clients. CIBER's services are offered globally on a project- or strategic-staffing basis, in both custom and enterprise resource planning (ERP) package environments, and across all technology platforms, operating systems and infrastructures.
