### **CIBER WINS \$26 MILLION IT SERVICES CONTRACT**

**GREENWOOD VILLAGE, Colo. – Jan. 25, 2010** – CIBER Federal, a division of CIBER, Inc. (NYSE: CBR), announced today that it is part of the Dynetics team that won the National Aeronautical and Space Administration (NASA) Marshall Space Flight Center Information Technology Services Contract. Under the NASA Marshall Space Flight Center Information Technology Services (MITS) contract, CIBER will provide over 60 personnel for five years, generating revenues exceeding \$26 million. “This award represents a new foothold for CIBER in the strategically important Huntsville, Alabama, market, which houses not only NASA’s Marshall Space Flight Center campus, but also the U.S. Army’s Redstone Arsenal and the Department of Defense’s Missile Defense Agency as well,” said Marcia Kim, CIBER Federal President.

CIBER’s history of providing IT and telephony to clients such as the U.S. Army, U.S. Army Reserve, and U.S. Navy is now complemented by extending these services to NASA, for whom CIBER Federal already serves through training contracts that include our award-winning work for the NASA Engineering and Safety Center (NESC) academy. Transition began in early December with CIBER beginning its role at Marshall Space Flight Center on or about February 1st. Dr. Ron Smith, a Sr. Vice President of CIBER’s Defense Technology Division, was selected to lead the Dynetics team transition. Dr. Smith will be working with Dr. Ron Nyberg, the Dynetics program manager for the NASA effort.

“CIBER is a key member of the NASA MITS Team. We are pleased to have them on board. They bring complementary strength to the Dynetics team through their years of proven service in the IT and telephony fields,” said Jonathan Whitcomb, Dynetics Sr. Vice President. Dynetics, Inc., a 35-
