**CIBER AWARDED GLOBAL SAP IMPLEMENTATION CONTRACT
WITH NAVMAN WIRELESS**

GLENVIEW, Ill. – Jan. 28, 2010 – CIBER, Inc. (NYSE:CBR) has been awarded a contract with Navman Wireless Holdings, LP. Navman Wireless, a global leader in the provision of vehicle and asset tracking solutions via GPS satellite technology, engaged CIBER to implement SAP® software solutions for financials, sales and product services, including the SAP ERP and SAP Customer Relationship Management (SAP CRM) applications. This global implementation will cover the majority of the company's North American, European, New Zealand, Australian, and Asian operations.

The implementation of SAP solutions will better equip Navman Wireless to serve its more than 9,500 global clients, and continue to provide fleet management services, including two-way messaging and integrated satellite turn-by-turn navigation solutions, worldwide for a diverse variety of end-market and fleet-size customers. This project will standardize and streamline worldwide processes and provide real-time financial and operational information, as well as provide a framework and foundation for Navman's future growth. For the SAP implementation, CIBER will be providing project management, technical set up, training and implementation support.

"CIBER was able to clearly establish its understanding of our business requirements and map these requirements with SAP Best Practice offerings," explained Mike Henn, Executive Vice President and Chief Financial Officer, Navman Wireless. "CIBER clearly positioned themselves as the firm best suited to achieve our goals of a rapid implementation timeline, thereby allowing us to control our overall investment on this project in terms of time and money. We look forward to the completed implementation of this key strategic initiative."
