**CIBER'S PRINCIPLE EXPRESS PACK (PEP)
NAMED AN ORACLE ACCELERATE SOLUTION**

GREENWOOD VILLAGE, Colo. –March 22, 2010 - CIBER, Inc. (NYSE:CBR), announced its Principle Express Pack (PEP) is now the first Oracle Accelerate solution in North America for the food and beverage industry that leverages Oracle's JD Edwards EnterpriseOne. CIBER's PEP is an affordable, adaptable and rapid Enterprise Resource Planning (ERP) solution designed specifically for the food and beverage industry. CIBER is both an Oracle Accelerate and Platinum Partner in the Oracle® PartnerNetwork.

PEP is a comprehensive enterprise foundation, built on Oracle's JD Edwards solution, which allows companies to add applications as their business grows. Providing pre-configured functionality from harvest and field management to complex pricing, including quality-based pricing, CIBER's PEP is a robust enterprise solution with the capability to operate an organization's entire ERP needs.

"Oracle Accelerate solutions combine our world-class applications with Oracle Business Accelerators and knowledgeable partners to deliver complete, industry focused solutions that are affordable for midsize organizations," said Mark Keever, Group Vice President, Oracle Midsize Applications Program. "CIBER's industry expertise and reach is critical for companies looking to own specially tailored solutions for the food and beverage industry."

"With PEP, CIBER's bundled food and beverage enterprise solution, our clients can experience lower total cost of ownership and rapid realization of business value," expressed Mike Dillon, Senior Vice President of CIBER's Oracle Practice. "This industry pack leverages our food and beverage expertise and industry best practices to provide the customizations that are typically required within the food and beverage industry. This solution provides unique pre-configurations and can be implemented globally, offering multi-language, currency and localizations."

CIBER'S PEP NAMED ORACLE ACCELERATE SOLUTION

CIBER was one of the first firms to develop a fully ERP-integrated solution to help manage grower relationships and one of the first to apply principles of lean manufacturing to companies in the food and beverage industry. CIBER leverages its expertise in the food and beverage industry by helping clients improve the entire span of the value chain including suppliers, growers and ranchers, packers and processors, brokers and distributors, as well as retailers and food service.

About Oracle Accelerate

Oracle Accelerate for Midsize Companies combines Oracle Applications and Business Accelerators with industry- and geography-specific deployment expertise to solve business problems in highly targeted and rapidly deployable packages. Oracle Business Accelerators are rapid implementation tools, templates and industry- and geography-specific leading practice process flows provided by Oracle to partners to help dramatically reduce implementation time, complexity, cost and risk.

About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) Specialized is the latest version of Oracle's partner program that provides partners with tools to better develop, sell and implement Oracle solutions. OPN Specialized offers resources to train and support specialized knowledge of Oracle products and solutions and has evolved to recognize Oracle growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to differentiate through Specializations. Specializations are achieved through competency development, business results, expertise and proven success. To find out more visit <http://www.oracle.com/partners>.
