## **CIBER SUCCESSFULLY COMPLETES UPGRADE TO HILLSBOROUGH COUNTY PUBLIC SCHOOL'S LAWSON APPLICATIONS**

**TAMPA, Fla. – April 14, 2010** - CIBER, Inc. (NYSE: CBR) announced the successful upgrade to Hillsborough County Public Schools' (HCPS) enterprise software applications from Lawson Software, including the Lawson S3 Financial, Management Procurement, and Human Capital Management suites. HCPS is the eighth largest school district in the U.S. with 243 schools and more than 190,000 students. CIBER and HCPS partnered to bring the Lawson applications to the latest release, allowing the District to take advantage of added functionality and technology advances within the software.

In addition to the upgrade of the applications, CIBER provided project management, technical consulting and training. CIBER's team created a solution that is cost effective, efficient and fully supports HCPS needs.

"Economic conditions have made it more important than ever that HCPS be very selective and thorough when choosing project partners. CIBER was able to tailor an upgrade solution to our unique needs. Their proven methodology, strong project management, and flexibility ensured this project was completed on-time and within budget. The result is more efficient business processes, eliminating unnecessary costs and effort," said Dr. Joseph Cochran, Manager, IT and Process Improvement of HCPS.

"CIBER is happy to have partnered with HCPS on this upgrade project. The completion of the upgrade was successfully delivered within HCPS' budgets and timelines and with very little risk," explained Paul Robson, Vice President of CIBER's Lawson Practice.
