

Don't tolerate your outdated technology. Cash it in.

TRADE IN AND TRADE UP WITH CIBER AND ZEBRA.

If you've been experiencing "technology envy" with all the advances in today's enterprise computing devices, now is the time to move up.

Ciber has partnered with Zebra to give you an unbeatable offer.

UP TO \$300 CASH FOR YOUR TRADE-IN

Trade in your legacy devices and get cash back when you purchase a new Zebra device. With the GO Zebra Trade-in Program, you can even trade in a non-Zebra model. We'll safely dispose of it while you're reaping the rewards of the industry's most user-friendly, rugged, and intuitive mobile computers and thermal printers.

Convert those handheld computers and barcode printers that are slowing down productivity and costing you money. When you upgrade to the latest, purpose-built hardware that addresses your challenges, you'll realize a rapid return on investment with a low total cost of ownership.

CIBER STRENGTH AND VALUE

Retire your legacy devices and cash in on greater value—with the quality, performance, and durability of Zebra technology and the money back for your trade-in.

Ciber, an HTC Global company, has been paving the way for enterprise computing advances for more than 43 years. Count on our knowledge, expertise, and commitment to delivering results.

YOUR
TRADE-IN

CONTACT CIBER TO TAKE ADVANTAGE OF THE GO ZEBRA TRADE-IN PROGRAM.

SMARTER. SLEEKER. STRONGER.

Zebra mobile computers have the sleek styling of a consumer smartphone, but the brains and brawn of an enterprise-grade handheld.

SECURE, TOUGH & EASY TO USE

Get more performance and reliability from your operating system when you choose one that's expressly engineered for business. Zebra's mobile devices come with the fortified Android of Zebra's Mobility Extensions (Mx) built in.

THERMAL PRINTERS THAT WORK AS HARD AS YOU DO

From producing clear, crisp barcode labels to high-security access control cards, the Zebra portfolio meets every need.

PREPARING FOR OS MIGRATION?

Contact us to trade-in your legacy Windows devices for Android
